Another possible culprit triggering the "service engine soon" light is misfiring spark plugs. Spark plugs on older vehicles (before 1996) needed to be changed every 40,000 to 50,000 kilometers; on more modern vehicles spark plugs can go to 150,000 km before needing to be changed. Faulty spark plugs can cause your engine to misfire.

There's a little scan tool that goes for \$49 at many auto parts stores. You plug it in to a small outlet under the dash, usually at the base of the steering wheel. It comes with a little book that tells you what the code means. You can turn it off, but unless you fix the problem, it will go back on again.
